Trainee Program (Junior Managers Program) Manufacturing

**Innovation and know-how advantage determines the Bosch company success.
Join us in mastering new tasks through your willingness to learn new things.**

For our Bosch Rexroth location in Mellansel, Sweden we are looking for a future Manager in the area of Manufacturing, starting on the next possible .

Bosch Rexroth is one of the world's leading specialists in the field of drive and control technologies. Under the brand name of Rexroth the company supplies customers with tailored solutions for driving, controlling and moving for industrial applications and factory automation, mobile applications and using renewable energies.

"Made by Bosch" is the mark of excellence of a global player – not just in products and services but also in careers. The best example is our Junior Managers Program, a worldwide program for young leadership talent. It guarantees common standards across the Group in terms of training content and development goals, while setting the benchmark for the qualifications demanded of our future managers.

Your tasks:

- ▶ The program takes up to 24 months which are divided in 4 stations of 6 months each
- ▶ You get to know different areas of the company in your personalized program
- ▶ A station abroad is an integral part of the program
- ▶ You demonstrate your abilities in Production Planning and Control, Process Development, Lean Manufacturing or Quality Management and other cross functional stages
- ▶ You handle projects independently which help you gain insights into global manufacturing strategies, while being involved in daily operations as well
- ▶ A diverse and continuing education supports your professional and personal development
- ▶ Your personal Mentor helps you in designing the program individually through necessary advise in your career planning

Your profile:

- ▶ You should have completed your study of manufacturing technology, mechanical engineering, mechatronics or a comparable graduation with excellent scores in your diploma, master's, or doctorate
- ▶ Max. up to 3 years working experience in Logistics or related function in a multinational company is an added advantage
- ▶ You are keenly looking forward to diverse tasks in different functions
- ▶ Additional knowledge of the Transmission, Hydraulics, Pneumatics, Drive and Control units or Automation Technology is desirable
- ▶ You are globally mobile
- ▶ You are expected to have a good hold over the English language
- ▶ You complete your profile with a sense of strong characteristics of initiative, team spirit and resilience

Please submit your motivational letter and CV in English and add a scanned copy of your latest grade transcript.
